Rusconi Lawn Grass Seed

For Lawns

OFFERED BY

D. RUSCONI

BULB AND SEED MERCHANT

Phone Canal 643

126-128 West Sixth St.

CINCINNATI, O.

We make a specialty of
HOLLAND - GROWN FLOWER
SEED. Nearly all the Sorts we
offer have been grown for us by
the Leading Growers of that
Country, and are ALL NEW,
FRESH and CROP of 1916.

I, D. RUSCONI, give no warranty, express or implied, as to description, quantity, productiveness, or any other matter of any seeds, bulbs or plants I send out, and I will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once.—
D. RUSCONI.

I have grown Lily of the Valley pips for several years, but the pips I purchased from you in 1915 were extra fine—the best pips I have ever had.

WM. SCHUMAN, Florist,
Newport, Ky.

The Narcissus, Paper Whites, Golden Spur, Soldier and Von Sion, also Azaleas, Spirea and the Dutch bulbs I bought from you were very satisfactory and I willingly recommend them to anybody.

MRS. JACOB GENTER, Florist,
Cincinnati, Ohio.

The Narcissus, Paper Whites I bought from you in 1915 proved to be very satisfactory.

HENRY KOESTER, Florist,
Cincinnati, Ohio.

I have been growing your bulbs for many years and find them to be very satisfactory. My Narcissus, Paper Whites this year were extra fine.

W. G. MATTHEWS, Florist,
Dayton, Ohio.

Ft. Thomas, Ky., July, 1915.

Dear Mr. Rusconi,

The seeds and bulbs I bought from you grew very fine. I have the best and immense flowers of everything. I will recommend your seeds and bulbs to everybody.

Yours respectfully,
CONRAD STANDINGER,
Private Florist and Landscape Gardener.

Garden Seeds---Selected

PEAS.

Hedge Plants

CALIFORNIA PRIVET.

Of all ornamental hedge plants this is the most popular, and more of it is planted than all others combined. Its foliage is a rich dark green, and is nearly evergreen, remaining on the plant until midwinter. It is of free growth, and succeeds under the most adverse conditions, where other plants would not exist.

To form a dense hedge from the base up the plants should be severely pruned the first two seasons. Plant the one-year-old size eight inches apart in the row, the larger sizes ten to twelve inches apart.

	Per 100	Per 1000
Strong, 1-year, 18 to 24 inches.....	\$3.00	\$25.00
" 2-year, 24 to 30 inches.....	5.00	40.00
" 2-year, 30 to 36 inches.....	6.00	50.00
Selected 3-year, 36 to 42 inches.....	8.00	70.00

OSAGE ORANGE. This is still used extensively on farms and along highways. It makes a strong defensive hedge that will turn cattle. Should be planted in double rows, 6 to 9 inches apart in a row.

Strong Two-year-old Plants, \$1.25 per 100; \$6.00 per 1000.

SPIREA VAN HOUTTEI. One of the most beautiful of all hedge plants. One mass of white when in bloom, and still beautiful in form and foliage, until frost removes the leaves.

18 to 24 inches, \$2.50 per dozen; 2 to 3 feet, \$5.00 per dozen.

BERBERIS THUNBERGII. Where a low dwarf, deciduous hedge is wanted nothing equals this beautiful Barberry. It is of spreading habit, growing extremely thick right from the base, and requires but little pruning to keep it in shape. The leaves are small, light green, and toward fall assume the rich, brilliant colors, the fruit or berries becoming scarlet.

\$2.50 per dozen; \$20.00 per 100.

ALTHEA (Rose of Sharon). A free flowering shrub of easy culture and very desirable on account of blooming in August and September; extensively used as hedge plants, for which they are admirably adapted.

\$2.00 per dozen; \$15.00 per 100.

BOXWOOD EDGING.

Nice, bushy plants, 4 to 6 inches high; 20c each; \$2.00 per dozen; \$18.00 per 100. Selected bushy plants, 6 to 8 inches high, 25c each; \$2.50 per dozen; \$20.00 per 100; \$80.00 per 1000.

ROSES

ORLEANS.

MAD LUZET, light silvery pink.

THE LITTLE GIANT BRASS SPRAY PUMP.

Fitted With Patent Agitator and Return Overflow Cap. Brass Ball Valves.

Little Giant.

These spray pumps are constructed entirely of brass, a material that is not affected by the poisonous arsenites used in different formulas for spraying. They are so arranged that the labor of pumping is all done on the downward stroke of the piston. The operator is enabled to keep a constant pressure on the nozzle of from 50 to 100 pounds. Will throw a solid stream 50 feet, and are of unusual value for washing windows, extinguishing fires, sprinkling lawns, whitewashing, etc.

Little Giant Brass Spray Pump with Agitator, complete with hose and Imperial combination fine and coarse spray, and solid stream nozzle, with malleable foot rest.....\$ 2.75

Mushroom Spawn

(Pine Culture)

One pound will spawn about
ten feet square.

If ordered by mail, add eight
cents per pound for postage.

To cultivate mushrooms successfully does not always require extensive experience. Some care is necessary, however, in the selection of materials and in forming the beds; but the matter of securing and maintaining the proper temperature in the room and in the beds needs close attention, for success depends very much upon this point. Mushrooms may be grown in a great variety of situations—a dark room, cellar, stable, or elsewhere. Any place in which an even temperature of about 50° to 60° can be kept is suitable. For materials for the bed, use fresh horse manure free from straw or chips, and good loamy soil. Some growers use manure mixed with loam, after first having well fermented it by alternately piling it and mixing it for a few weeks; but it is undoubtedly better not to allow the manure to heat much before forming a bed. Use one-fourth to one-third loam, the rest manure. Mix very thoroughly, and upon a dry, firm bottom make the bed of this manure, about four feet wide and of any desired length. Build it up evenly, press it down firmly, and leave it about a foot high. It will shortly begin to heat. Use a thermometer to thrust into the bed and note the temperature. When the heat has partially subsided, leaving a temperature of 80°, put in the spawn. Pieces from the size of walnuts to that of eggs are placed in the bed about a foot apart, deep enough to cover them well, and the manure pressed down. Let it remain thus ten or twelve days, then cover with two inches of fresh loam, and make this moderately firm. The bed is finished by covering all with four or five inches of straw or other litter. Watering is not necessary, unless the surface of the bed gets very dry; in this event moisten freely with water at a temperature of about 90°. In gathering the crop, do not cut, but twist them off carefully, filling up the holes with loam to keep insects from the roots. In six or eight weeks from spawning the beds mushrooms should appear.

PURE CULTURE SPAWN. Formerly all Mushroom Spawn was obtained from wild mushrooms growing along the English mill tracks. By scientific reasearch spawn makers now produce spawn from select mushrooms from their own cultivated beds. The bricks of spawn are now inoculated directly from the test tube cultures, thus producing a stronger and quicker growth, both in the brick and in the planted beds; neither was formerly possible when spawn cultures were so very scarce. Our manufacturers are the most successful growers in the United States. We receive monthly shipments in season, so our spawn is always fresh and strong.

Pure Culture Spawn made direct from Spores fully developed.

Selected Specimens—25c per brick; \$1.00 for 5 bricks, postpaid. By express, 10 bricks, \$2.00; 25 bricks, \$5.00; 100 bricks, \$20.00.

FERTILIZER

TANKAGE—An extra fine fertilizer, especially good for vegetables and grass. Per 100 pounds, \$1.50.

SHEEP'S HEAD BRAND PULVERIZED SHEEP MANURE is the best for Lawn, Flower Garden, Vegetable Garden, Green House, Nursery, Orchard, Vineyard, Small Fruits, Berries and General Fertilizing.

It is a high grade material especially adapted for use on Private Estates, Public Parks, Golf and Country Clubs, Florist Green Houses, Gardens and with growers of all kinds of plants.

SHEEP'S HEAD brand pulverized sheep manure is the ideal dressing for private lawns, golf courses or wherever a strong luxuriant growth of grass is needed.

No time is lost waiting for pulverized sheep manure to rot, as is the case with stable or barnyard manure.

No necessity of raking off refuse after application of **SHEEP'S HEAD** brand, or danger of tracking into the house, or making the lawn unsightly and evil smelling.

Apply **SHEEP'S HEAD** brand two or three times during the season before a rain or watering, at the rate of one pound to every thirty square feet, or less. This will keep the lawn or golf course in a flourishing condition.

PRICES 4 lbs., 15c; 8 lbs., 25c; 50 lbs., \$1.00; 100 lbs., bag, \$1.75; 10 bags, \$16.00; 20 bags (one ton), \$30.00.

PEAT, JERSEY, for potting Azalias, Palms and Ferns. Per barrel, \$2.75.

EVERGREEN PLANT FERTILIZER. 25c per can.

STERLINGWORTH PLANT TABLETS, 10c small size box; 25c large size box.

BONE MEAL. \$2.50 for 100 pounds.

We are prepared to do general landscaping, and make a specialty of planting private grounds.

Remit by Postoffice Order, Express Money Order, or draft on Cincinnati or New York. United States Postage Stamps accepted for small amounts.

I, D. Rusconi, give no warranty, express or implied, as to description, quality, productivity, or any other matter of any seeds, bulbs, or plants I send out, and I will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.—D. RUSCONI.
